

# HOWARD Docs

## 1 HOWARD Help

How to generate doc

### 1.1 Generate docs and pydoc html

```
./docs/docs.sh  
./docs/pdoc.sh
```

### 1.2 Generate MarkDown Help from help and JSON

```
howard help --help_md=docs/help.md  
howard help --help_json_input=docs/json/help.config.json --help_json_input_title='HOWARD Configuration' --help_md=docs/help.md  
howard help --help_json_input=docs/json/help.param.json --help_json_input_title='HOWARD Parameters' --help_md=docs/help.md  
howard help --help_json_input=docs/json/help.param.databases.json --help_json_input_title='HOWARD Parameters' --help_md=docs/help.md
```

### 1.3 Generate HTML and PDF

Use VSCode Markdown PDF plugin to generate HTML and PDF from MarkDown files All files in 'docs' and README.md
