

HOWARD Docs

1 HOWARD Help

How to generate doc

1.1 Generate docs and pydoc html

```
./docs/docs.sh  
./docs/pydoc.sh
```

1.2 Generate Markdown Help from help and JSON

```
howard help --help_md=docs/help.md  
howard help --help_json_input=docs/json/help.config.json --help_json_input_title='HOWARD Configuration' --hel  
howard help --help_json_input=docs/json/help.param.json --help_json_input_title='HOWARD Parameters' --help_md  
howard help --help_json_input=docs/json/help.param.databases.json --help_json_input_title='HOWARD Parameters
```

1.3 Generate HTML and PDF

Use VSCode Markdown PDF plugin to generate HTML and PDF from Markdown files All files in 'docs' and README.md
