

HOWARD Docs

1 HOWARD Help

How to generate doc

1.1 Generate MarkDown Help from help and JSON

```
howard help --help_md=docs/help.md
howard help --help_json_input=docs/json/help.config.json --help_json_input_title='HOWARD Configuration' --i
howard help --help_json_input=docs/json/help.param.json --help_json_input_title='HOWARD Parameters' --help
howard help --help_json_input=docs/json/help.param.databases.json --help_json_input_title='HOWARD Paramete
```

1.2 Generate HTML and PDF

Use VSCode Markdown PDF plugin to generate HTML and PDF from MarkDown files All files in 'docs' and README.md

1.3 Generate pydoc html

```
./docs/pdoc.sh
```

or

```
folder=docs/pdoc
mkdir -p $folder
pip install pdoc==14.5.1
export PDOC_DISPLAY_ENV_VARS=1
pdoc -o $folder howard
```
